Featured Links: PBS Mathline. In a time when environmental activists are urging every American to make small changes, these PBS Mathline activities focus on mathematical investigations of earth-friendly practices, including energy usage and recycling. They provide real data and encourage students to follow the data trail through time in hopes that they will be prompted to take action.

MEE0, born in 2004 with the aim to develop and commercialize products and services within the Earth Observation, is a privately-held company devoted to the development and implementation of products and services based on remote sensing of the Earth-Atmosphere system.

MEE0 S.r.l. - Meteorological Environmental Earth Observation

Infrared radiation (IR), sometimes called infrared light, is electromagnetic radiation (EMR) with longer wavelengths than those of visible light, and is therefore generally invisible to the human eye, although IR at wavelengths up to 1050 nanometers (nm)s from specially pulsed lasers can be seen by humans under certain conditions. IR wavelengths extend from the nominal red edge of the visible ...
