Gnosticism (from Ancient Greek: γνῶστικός gnostikos, "having knowledge", from γνῶσις gnōsis, knowledge) is a modern name for a variety of ancient religious ideas and systems, originating in Jewish-Christian milieus in the first and second century AD. These systems believed that the material world is created by an emanation or 'works' of a lower god (), trapping the divine ...

Natural selection is the differential survival and reproduction of individuals due to differences in phenotype. It is a key mechanism of evolution, the change in the heritable traits characteristic of a population over generations. Charles Darwin popularised the term "natural selection", contrasting it with artificial selection, which in his view is intentional, whereas natural selection is not.
