Introducing Communication Theory 4th Edition

The studies on information theory by Claude Elwood Shannon, Warren Weaver and others, prompted research on new models of communication from other scientific perspectives like psychology and sociology. In science, a model is a structure that represents a theory. Scholars from disciplines different from mathematics and engineering began to take distance from the Shannon and Weaver models as a ...

Interpersonal communication is an exchange of information between two or more people. It is also an area of study and research that seeks to understand how humans use verbal and nonverbal cues to accomplish a number of personal and relational goals. Generally, interpersonal communication research has contributed to at least six distinct categories of inquiry: 1) how humans adjust and adapt ...

What exactly does discourse “construct”? Discourse theorists disagree on which parts of our world are real. In other words, they take different ontological stances. Extreme constructivists argue that all human knowledge and experience is socially constructed, and that there is no reality beyond discourse (Potter 1997). Critical realists, on the other hand, argue that there is a physical ...
