As Rita Mulcahy writes in one of her prep books for the PMP ® certification exam, “ Do not underestimate the value of the project charter. It is such an important document that a project should not be started without one. If the project charter serves as a definition of how success will be measured, then without a project charter, the project and project manager cannot be successful”.

Importance of Project Charter in Project Management

The knowledge area of Scope Management includes the processes required to ensure that the project includes all the work, and only all the work required to complete the project successfully. It is primarily concerned with controlling what is and what is not in the scope. Project Portfolio Management is the process of project selection.
